

Mitutoyo: Global Mitutoyo

More than 9,000 products for more than 100 countries around the globe

Mitutoyo offers more than 9,000 products, the most comprehensive range of length and production measurement technology products available, making it the most important full-range provider internationally.

The company's development, manufacturing and sales activities stretch across more than 100 countries around the world. All global activities are coordinated by the head office in Kawasaki. In the home country of Japan alone, Mitutoyo operates more than 10 manufacturing plants, two development facilities, two Metrological Institutes, five calibration laboratories, seven Service Centers and seven M³ Solution Centres, in addition to the head office and all the national branch offices.

From its roots in Japan, Mitutoyo Group has established a significant presence in nearly 40 countries around the globe and currently operates more than 80 branch offices and national sales networks, 65 M³ Solution Centers, 17 manufacturing plants, six research and development laboratories, 12 Metrology Institutes and 20 calibration laboratories abroad. They are joined by Mitutoyo representative offices in around 60 other countries.

Together, these facilities form the Mitutoyo infrastructure that has been established for many years and functions perfectly for clients in all the important markets around the world.

For our multi-national customers this means a level of service quality that is assured around the world, on-site support and guaranteed interworking of measuring systems in the various branch offices and their foreign partners and suppliers.
